NOTE FOR:

SUBJECT: FY 1982 Budget Submission

Attached is the FY 82 budget for Moscow security and other measures of broad concern.

We have been asked by and the CIA Comptroller to submit in the form of decision packages rather than by DCI memorandum as you originally suggested. Mr. agrees. 25X1A

I am concerned with the reduced clout this format presents. If the DCI signs the memorandum from you, it might be helpful if you penned in a note on your concurrence line on the memo to that the DCI approves this concept. A copy of the memo with the DCI's signature could then be attached.
